B. NOTICES

Royalty Deposit Adjustment

The royalty deposit recalculation for 2007 is the lesser of 1/6 of a client's net royalty for 2006 and the amount determined by multiplying the current deposit maintained by the client by a price factor. The factor of (1.00) was calculated by dividing the current year long-term gas reference price for 2007 ($6.50) by the long-term gas reference price used in the 2006 ($6.50) calculation. Refer to Chapter VII, Section 1.5 of the Guidelines for additional information. If you have any questions, please contact Shellie Duiker at (780) 422-8083.

D. INFRASTRUCTURE DATA CHANGES

Client ID Listing

The BA Identifiers Report is a directory of Business Associate (BA) names, codes, status (e.g. struck, active, amalgamated, etc.), status effective dates, and effective August 2004, includes Working Interest Owner (WIO) role start/end dates.

This report is also published daily on the Petroleum Registry website at:

http://www.petroleumregistry.gov.ab.ca

The department reminds Business Associates to review their WIO role to ensure the start and end dates are reflected correctly. If the BA does not have an active WIO role, the operators cannot allocate volumes to the BA for the relevant production periods through the SAF/OAF allocations.

- If a BA has a WIO role start date with no end date, then that BA can receive allocations from the stated start date forward.
- If a BA has a WIO role start and end date, then they can only receive allocations from the stated start date until the end date. Any allocations after the end date will be rejected.
- If a BA does not have a WIO role start date, then that BA cannot receive allocations at all.

Please contact Client Registry at (780) 422-1395 if you have any questions regarding the information supplied on this listing.

Projects/Blocks

If information is required on Projects or Blocks, please contact Isabelle Warwa at (780) 427-8952.

Client Status Changes

Clients must ensure that all royalty documents are completed using only valid client names and IDs. It is critical that royalty clients use current legal client names and their appropriate IDs on all documents to ensure accurate royalty calculation and to prevent provisional assessment and penalties. Rejects will occur when invalid IDs are used.

If you require information regarding client names or IDs, please contact Client Registry at (780) 422-1395.

E. REMINDERS

Annual Operating Cost Adjustments for 2003, 2004, 2005 and 2006 Production Years

Royalty clients may have had a charge type on their February 2007 invoice titled "Annual Operating Cost Adjustment". This adjustment represents the difference between the actual annual operating costs and the accumulated estimated monthly unit operating cost rate (UOCR) deductions, including any prior annual adjustments, for a production year. Two reports were included with the invoice titled Annual Operating Cost Adjustment Details and Annual Operating Cost Adjustment Summary. Annual Operating Cost Adjustments are processed once a year and the adjustments were identified in the February invoice issued in April. The results of the 2007 UOCR calculation process are published on the Natural Gas website's Royalty Related Information page. Please select Unit Operating Cost Rates to view the most recent UOCR calculations. For additional information, please refer to the March 2004 Supplement Information Bulletin 04-03A or contact your Gas Royalty Client Services portfolio representative as identified in Section F of this bulletin.

Royalty Adjustment Program for Deep Marginal Gas Wells (RAP) Presentation

In March, an information session on the new adjustment program for deep marginal natural gas wells was presented to industry clients. The PowerPoint presentation is now available on the department website. To view this presentation on the Natural Gas website's Royalty Related Information page, select the link Royalty Adjustment Program for Deep Marginal Gas Wells (RAP).

If you have any questions regarding the presentation, please contact Tracy Wadson of Royalty Programs at (780) 422-9240.

Expected AC5 and EAGEV Reports on the Registry

On April 16, May 1, and May 10, 2007, the Expected Custom Processing (AC5) report and the Energy Adjusted Gas Equivalent Volumes (EAGEV) report were delivered on the Registry for client access. The delivery of the EAGEV report on these specific dates was intended for the convenience of the client only, and was not intended to replace the normal delivery and/or availability of the report that is scheduled monthly. The reports were available in PDF, TXT, and CSV formats.

Non-operators and other royalty clients that currently submit and receive hard documents received the expected AC5 report accompanied by an EAGEV report and cover letter, by mail, on the same delivery schedules prescribed above.

The deadline for filing an AC5 document, for the production year 2006, was May 15, 2007.

If you have any questions, please contact your Gas Royalty Client Services portfolio representative as identified in Section F of this bulletin or contact Joey Dennis at (780) 422-9260.

In situations where a company has just amalgamated or purchased another company, the general rule is to call the team that is responsible for the "Supra" business associate, or Royalty payer.

Below are some guidelines for clients who are unsure which Client Services Team to call regarding their questions.

1. **Amalgamation/consolidation** - Call the team responsible for the "Supra" business associate (Royalty Payer).
   i.e. ABC Oil and Gas amalgamates with Zed Exploration and Zed is the amalgamator (royalty payer). When calling Client Services regarding business for ABC Oil and Gas you would call Team 4 (Q-Z) (780-644-1204) because Zed Exploration is now the Supra business associate and royalty payer. This rule would apply even if you were calling regarding business that is prior to the acquisition or amalgamation.

2. **Asset Purchase** - Call the team responsible for your company.
   i.e. 123 Gas purchases the assets of TSP Exploration, but not the company. When calling Client Services regarding business for 123 Gas you would call Team 1 (# Co., A, B, & L) (780-644-1201) because you have only purchased assets. You would not be entitled to information regarding business for TSP Exploration that is prior to the asset purchase.

3. **Consultants/service providers** - If you have a contract to provide production accounting services to a company, call the team responsible for your client's company.
   i.e. Paul Snow Consulting Services enters into a contract with Duckback Oil and Gas and Olive Oil and Gas. Paul Snow would contact Team 2 (C-G) (780-644-1202) to discuss Duckback Oil business and Team 3 (H-P excluding L) (780-644-1203) to discuss Olive Oil and Gas business. At the time the contract is signed, Paul Snow would have had each company notify the appropriate team that he was authorized to access information for their company.
